

During the one week service trip, teams operate a high energy, 2-day KIDS CAMP at our main campus in Gombe, Uganda. Additionally, teams serve Ugandan schools, visit local families in their homes and spend time with our staff of Ugandan coaches.

The goal of each trip is to advance the existing relationships our coaches have in their communities.

Each campus has hundreds of children and family members connected to our program. Training, sharing and serving these community members is rewarding.

We offer trips for students, families and other specialty groups. Trips are 20-35 people and can be customized for year-around visits. Lodging happens at our American style dorm house, located in a friendly Ugandan village.

Get ready to meet some warm Ugandans who appreciate the opportunity to meet friends from the USA.
